Multiple Choice Question

Seven piano students—T, U, V, W, X, Y, and Z—are to give a recital, and their instructor is deciding the order in which they will perform. Each student will play exactly one piece, a piano solo. In deciding the order of performance, the instructor must observe the following restrictions:

1. X cannot play first or second.

2. W cannot play until X has played.

3. Neither T nor Y can play seventh.

4. Either Y or Z must play immediately after W plays.

5. V must play either immediately after or immediately before U plays.
